

Estudi 1

Impact of apolipoprotein (a) isoform size heterogeneity on the lysine binding function of lipoprotein(a) in early onset coronary artery disease
JM Simó, J Joven, E Vilella, M Ribas, MA Pujana, IM Sundaran, J Hammel, J Hoover-Plow. *Thromb Haemost* 2001 85(3):412-7

Estudi 2

Polymorphisms in human apolipoprotein(a) kringle IV-10 and coronary artery disease: relationship to allele size, plasma lipoprotein(a) concentration, and lysine binding site activity
JM Simó, J Joven, E Vilella, M Ribas, L Figuera, C Virgos, IM Sundaran, J Hoover-Plow. *J Mol Med* (2001) 79 294-299

Estudi 3

Instability of Lipoprotein(a) in plasma stored -70°C: Effects of concentration, apolipoprotein(a) genotype, and donor cardiovascular disease
JM Simó, J Camps, E Vilella, F Gómez, A Paul, and J Joven. *Clin Chem* (2001) 47:9 1673-1678
